Sun rise occurred without mishap Gods appear to be taking pity on us. This must be a bad omen. I advise crew to pay special attention to anything that looks normal. We must be aware of anything which would normally go unnoticed. Specifically I have requested them to look for anything that is abnormally abnormal to the usually normality of our abnormal existence...normally.

Route destination altered so that Mecca can be approached from a more secure angle. Order given for incognito travel. All have begun preparations to appear as tourists.

In order to facilitate contact a wedding has been arranged so that we can meet. As a result the Mission Commander Ens. S. Clarke will be required to be fitted for a TUXEDOS (Temporary Undercover Experimental Exomorphic Diplomatic Operation Suit) and will then be taken to a "rehearsal" for primary contact. Liaison Report

To: CDR MacGillivray
From: Ens. Dr. S. Clarke

1. Arranged wedding lasts 3½ hours.
2. Contact made with "Roger".
3. I am full convinced that "Roger" is member of the fabled civilization of the "Lost Slabovians". (see Vol.7 of Phallas correspondent documentation of file at DELPHI)
4. I have initiated formal greetings and invited them to visit our web site in order that they may begin a dialogue with their fellow country men.
5. One major word of caution. These people have never traveled outside the boarders of SEXUS and so are easily frightened by unusually fast and aggressive behavior. Our fair brothers must be treated with delicate sensitivity otherwise it make take us years to build enough trust before we can make contact again.
7. After successful contact made, recommend sending them on observation trip to Pharr.
8. At "wedding reception" followed example set by Lt. Robillard on SINKME caught GARTER thing.
9. Made good impression.
10. Didn't get killed.
